MOTOROLA TALKABOUT® T6500 TWO-WAY RADIO SERIES

With a range of up to 10 miles*, the T6500 is guaranteed to not drop a call, charge you roaming or be out of signal range. And with a choice of a drop-in charger or alkaline battery power, you never need an electrical outlet to keep in touch. So if you are at the mall with your family or camping in the wilderness, you can rely on millions of free minutes on your T6500 to stay together.

NOAA WEATHER CHANNEL

The T6500 helps you plan and pack for your trip with a NOAA channel (National Oceanic and Atmospheric Administration) providing continuous local and regional weather broadcasting. And when you are out having fun, warnings of dangerous incoming weather, such as tornadoes and hurricanes, will keep you and your family safe and protected.

FULL-FEATURED PRIVACY

Worried about finding a channel? The T6500 has it covered with 2,178 channel and code combinations provided by a full 22-channel capacity and 99 privacy codes. Additionally, Priority scan quickly finds the most private channel in crowded environments, and with the QT™ (Quiet Talk) interruption filter enabled, radios from other manufacturers cannot be heard on your channel, ensuring a private conversation for your group.

HANDS-FREE COMMUNICATION

When you have your hands full at the mall, you really don't want to drop everything to answer a call. Enter iVOX. Acting as a speakerphone, the iVOX hands-free communication allows you to keep busy and find out where you are all meeting for lunch.

SILENT SIGNALS

The VibraCall® silent vibrating ringer is ideal at the racetrack or a football game where you would not be able to hear a ringer. Simply switch onto VibraCall® to make sure that you never miss out.

COMPANDING

The T6500 has a Motorola exclusive feature—"companding"—a sophisticated digital technology that filters out static between words. This allows the radio to deliver noticeably clearer transmission.
